ABOUT ITF INTERTEX SPAIN

As a dynamic new meeting point for the international textile industry in Europe, ITF Intertext Spain was held for the first time in Spain and brought together global textile professionals under one roof.

The first edition attracted thousands of professional visitors from numerous countries, confirming strong international interest in the Spanish textile and apparel market. The exhibition hosted a wide range of exhibitors from different regions who showcased innovative textile products and solutions tailored to the needs of European and global buyers.

Held concurrently with ITF Intertext Machinery Spain, dedicated to textile machinery and production technologies, the event successfully welcomed a high-level professional audience over the three-day exhibition period.

ITF Intertext Spain provided a valuable platform for industry decision-makers, buyers, manufacturers, agents, distributors, retailers, brand representatives, and other sector professionals to network, exchange insights, and establish business partnerships with leading international exhibitors.

ITF INTERTEX SPAIN Madrid
17 - 19 November 2025 | International Exhibition of the textile industry

ITF INTERTEX SPAIN is an internationally significant trade fair for the textile and apparel industry, held annually since its inception by the renowned organizer B Group. The name stands for "International Textile Fair" with "ITF" as an acronym emphasizing the global interconnectedness of players in the textile sector. The event takes place at the bright and architecturally impressive Casa de Campo Convention Center (Pabellón de Convenciones) in Madrid - a venue that reflects the openness and dynamism of Spain's capital city.

Each year, the fair attracts exhibitors and trade visitors from over 20 countries. It serves as a specialized platform for exchange between manufacturers, suppliers, designers, and professional buyers. The focus lies on technology of advanced, sustainable solutions, and innovative strength - key themes that are shaping the future of the textile industry.
